**Q: What is the D:S ratio of model 8877 IR thermometer**

Edit: Mari Weng Feb. 2021

**Answer:**

To reach +/-0.5 F (+/-0.3°C) accuracy, we don't describe D:S ration is model #8877. Instead, we suggest the distance is as close as possible from the measuring surface, such as 1 inch (3cm) and no more than 4 inch (15cm) distance. Thank you
