Question:

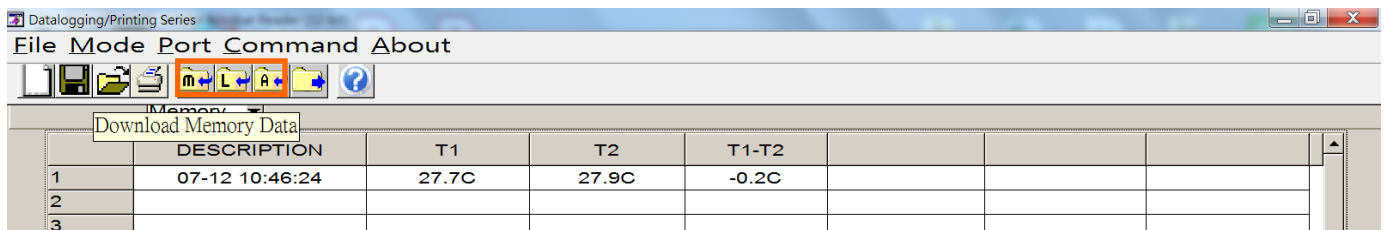

How to uploading pre-edited header from PC to 98xx & 96xx meter?

Reply:

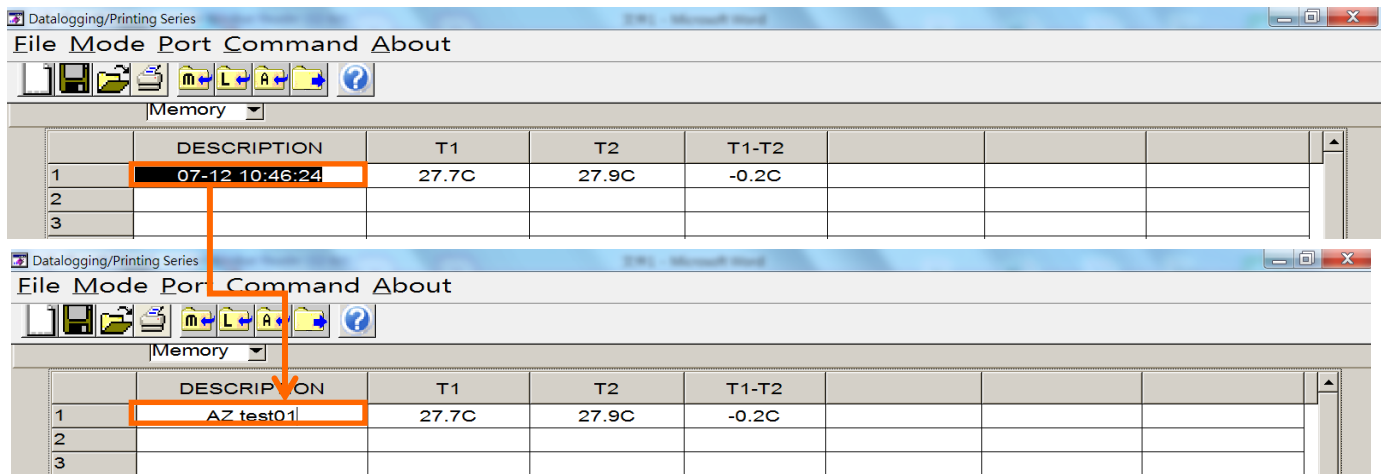

Please follow below 3 steps to upload the edited header:

1. Download the data from meter

(By press shortcut icons as marked below, or choose under Command)

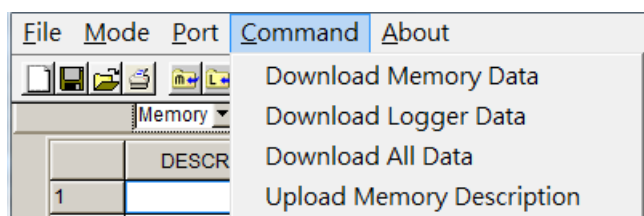

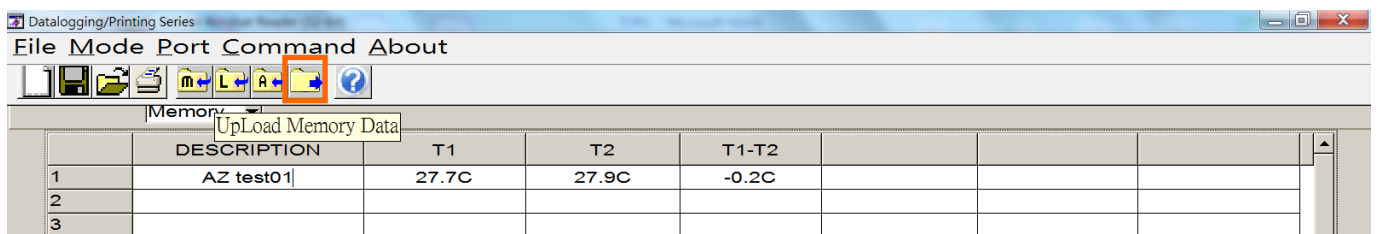

2. Double click on "Description" column to edit header

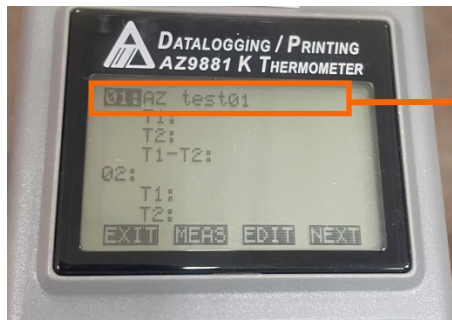

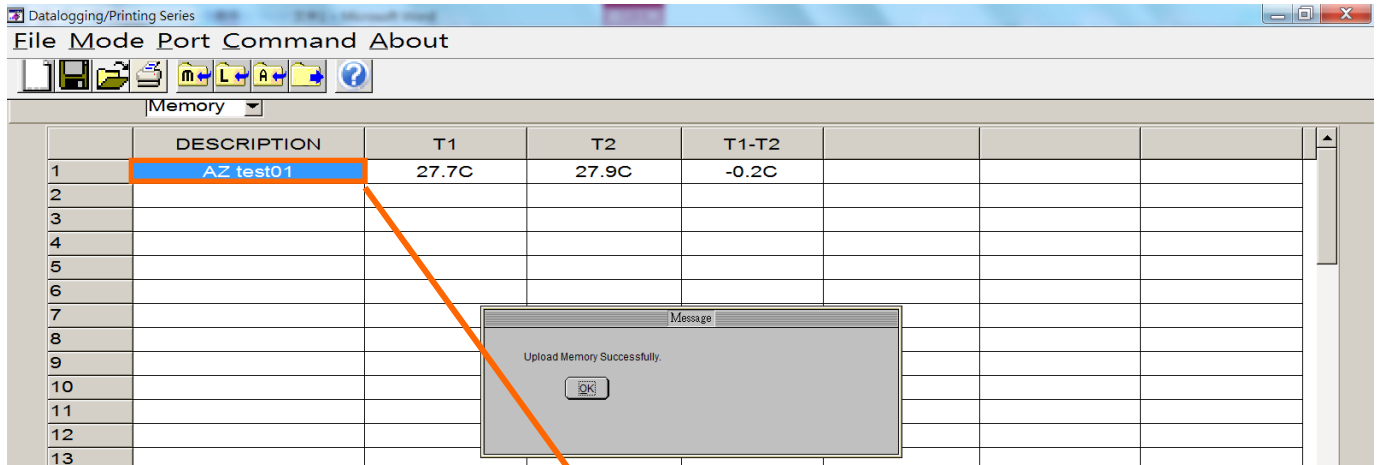

3. Selected "Upload Memory Data/Description" to upload the edited header

(By press shortcut icons as marked below, or choose under Command)

“Upload Memory Successfully” will pop out as below image

Header upload complete
